

Intelligent Customer Centric Supply Chain with SAP Ariba

TCS is recognized for its full service play in SAP and helping customers in solving their Supply Chain leveraging SAP Intelligent Spend Management.

In today's disruptive environment, the need to secure supply chain strength while delivering cost savings, has never been more critical. To help procurement departments deliver measurable savings outcomes, our partner SAP Ariba is extending free access to SAP Ariba Start Sourcing. From Tata Consultancy Services, we are supporting SAP in spreading this free offer to help you run Sourcing events immediately to find and qualify new suppliers in an easy, cost-efficient way.

KEY VALUE DRIVERS:

Cut sourcing cycle times by 50%

Reduce administrative costs by 15%

Realize immediate savings of 8 -14%

Over the past few weeks and months, the COVID-19 pandemic has emerged as a significant global challenge that is creating disruption across the world. We strongly believe that these global challenges need global solutions. We are engaged with our employees, clients, partners, public institutions, and community organizations to rise to the occasion.
